

DSF-500/590 DEDICATED SHOTGUN FOREND

ULTRA-HIGH TWO-OUTPUT-MODE LED WEAPONLIGHT

.....

Model Number: DSF-500/590
UPC Number: 084871321020 (BK)
MSRP: \$375.00

.....

The SureFire DSF-500/590 is designed to replace the factory forend of a Mossberg 590 or 500 shotgun. It features an ultra-high-output, recoil-proof LED that generates 600 blinding lumens of white light on its maximum setting, and 200 lumens of tactical light with nearly twice the runtime on its high setting. A precision reflector focuses the two-output LED's light into a smooth, intense beam with ample reach and plenty of peripheral illumination for close- to medium-range applications. The slender, lightweight polymer forend is textured for a positive hold and features an ergonomic output-mode-selector switch, ambidextrous momentary- and constant-on switching, and a system-disable switch to prevent accidental activation. Setting the LED's output level is simply a matter of activating the light in constant-on mode and then pressing the selector switch until the desired output (600 or 200 lumens) is set. The set output level can then be left in constant-on mode or switched to momentary-on. Providing unmatched versatility, durability, illumination, and control, the DSF-590/500 is the ultimate Weapon-Light for Mossberg 590/500 combat shotguns.

FEATURES & BENEFITS

- Virtually indestructible ultra-high-output LED generates 600 lumens of blinding light on its max setting and 200 lumens, with nearly twice the runtime, on its high setting
- Precision reflector shapes a versatile beam with reach and plenty of surround light for close-quarter applications and beyond
- Ergonomic switching: output-mode-selector switch, momentary- and constant-on switches on both sides, system-disable switch on bottom
- Fits 6.75" slide-action assemblies and, with use of the included precision-machined aluminum spacer, 7.75" assemblies
- Mil-Spec hard-anodized aluminum body, tempered window & O-ring seals make WeaponLight rugged, durable, and weatherproof
- Powered by two included 123A lithium batteries with 10-year shelf life
- Backed by SureFire's No-Hassle Promise

SPECIFICATIONS

LED Color Body Color

MAX OUTPUT:	600 lumens / 13,800 candela
HIGH OUTPUT:	200 lumens / 4,600 candela
MAX-OUTPUT TACTICAL RUNTIME*:	1.5 hours
HIGH-OUTPUT TACTICAL RUNTIME*:	3 hours
BEZEL DIAMETER:	1.37 inches (3.5 cm)
LENGTH:	9.2 inches (23.4 cm)
WEIGHT:	17.8 oz (505 g) without spacer for 6.75" slide tube 18.2 oz (516 g) with spacer for 7.75" slide tube
SWITCHING:	Ambidextrous momentary- and constant-on, output-mode selector, system-disable
MATERIAL:	High-impact polymer, aerospace aluminum, tempered window
FINISH:	Mil-Spec Type III anodizing
COLOR:	Black
BATTERY:	Two lithium 123A (included)

*Runtime until output drops below 50 lumens
